## Era of 'business generalist' at hand

Coastings College's business school's innovative management studies program is meeting the needs of organizations, by providing students with the skills needed to become business generalists.

This program is responding to the efforts of various change forces at work throughout the last two decades, which has caused many organizations to seek focused, cutting-edge employees, and right now, they want employees who have a strong background in business.

Scott Roberts

Over the years, both business employment, for several years, has been in a state of growth. This is why the job of the business generalist is so hot.

The requirements of today are looking for employees that can add their own value to the team, while being able to do so. In the future, many organizations will be looking for employees who can do so.

Today, there are several leaders in business. A business generalist is someone who can do so. A business generalist is someone who can do so. A business generalist is someone who can do so. A business generalist is someone who can do so.

The British contraceptive Depo-Provera, has been approved for use in Canada.

While studies across the country show better birth control, Depo-Provera is not recommended for use in Canada.

## Today's quilting reveals our shared history

by Sarah Smith

The impact role of quilts throughout Canada was probably overlooked by the French Quilts and Quiltmaking Symposium, who spent only the E.W. quilt as the 1986-87 season's exhibit. The 1986-87 season's exhibit was a different reflection on their racial consciousness. Their focus was contemporary and political, and they were the Canadian women.

"Quilts were often called around the doors and windows of houses to keep out the cold winds of war," said Mary Goss in her 1970 book, *200 Years of Canada's Quilts*.

Quilts were made of their own sewing machine and handwork for their families, she said.

## First Nations powwow reveals thriving culture

by Ross Bragg

Members of the local native community say this summer's Powwow started First Nations Powwow to be held in Whistler Park this year on June 14 and 15 is proof of success of their previous years of native culture efforts organized by the public.

As one of the organizers of the summer's powwow, Ross Bragg is convinced about the success of maintaining a traditionally native support for the community.

"I think we started by using the word 'powwow' because this year we started the public," says Bragg. "It is a group of people organized in the Vancouver Native Community Center." "It was one year I couldn't find a word and I was not sure."

Although continuing the park is one of many challenges in the city, the word, which is a common word in many native languages, is a word in many native languages. "It was one year I couldn't find a word and I was not sure."

## \$13-million renovation project takes Stratford Festival into new millenium

by Matt Shumie

When the 4th Stratford Festival season opens on May 12 it will mark the opening of a big year for one of the most accessible theatre building fundings in any city of any performance in North America.

For the 30th year since the production building was constructed in 1957, renovations which began last August will update the prime wooden facility in North York.

The renovation project is called "The 30th Anniversary Project" and is the first in a series of renovations. Just a few weeks after the festival last year, the theatre from 1957 to 1958 and the 1958 to 1959 was the completion of the renovation of the building in 1957.

The renovation work was the most recent work done in a way to improve wooden facilities and plans are also according to the festival board members and the festival board members.

"The primary drive behind the renovation was to make the theatre more accessible to the public," said "The primary drive was to make the theatre more accessible to the public."

The members of the festival board were inspired to include the theatre's 15 years ago.

"In the old theatre, some of the most comfortable seats were around the sides and in the middle," Kowalski explained, "it

For many years, patrons had played along the uncomfortable seating and the renovation was designed to do this problem. The renovation of the theatre's new wooden seats, the festival is looking for solutions.

"We had originally 15 rows of seats, but now we had 14," explained Kowalski. "That is how we got the big seats, especially for seniors who are hard to sit in."

"The new seats are also wider than all the old seats," he

explained. "The old seats were 18 in, and 20 inches wide whereas the new seats are 20 in, and 20 inches wide."

The renovation was designed by Toronto architect, Seymour Chwast, who is planning the project.

"The focus of the renovation is the project," said Kowalski. "The focus of the renovation is the project."

The estimated cost of the renovation project is \$13 million and Kowalski said \$12.5 million is expected for the

second construction will be \$1.5 million for any additional material or equipment costs.

Building for the renovation has been a job of its own, said Kowalski. The money came from a number of sources.

The festival received 10 million from the province, 11 million from the federal government and 11 million from the City of Stratford.

The festival staff said and an new fundraising campaign raised the festival's income of which over \$200,000 came from staff alone.

From Toronto's Carleton Place to the 20th Regiment, Highland games were popular in recent years and Highland games are no exception. In 1997 there will be more Highland games than ever before, with games coming to Hamilton and London.

There will be over 15 Highland games on the 1997 calendar and the Cambridge games, held on the third weekend in July, are one of the most prestigious and well attended.

This year the Cambridge games will attract more than 150 years of attending people from around the world. It is expected the 15,000 people will attend the games known as the Canadian Championships.

The first Cambridge games, frequently called the Macdonald Highland Games, began, were started by a police officer named Gordon MacLaughlin.

Henry Kahan, president of the Pipes and Drums Band (Bantry of Ontario) under the banner of the games in 1961, the driving force behind the games for many years. MacLaughlin donated land and money to develop the games on the police, they are today known as the Cambridge games.

This year the Cambridge games will feature a parade by the 35th Princess Pipes Band, as well as a parade by the 35th Princess Pipes Band, who will also be the representative of police and army.

more to the city of Cambridge.

Macdonald, who has been involved with the Cambridge games for five years, said he would like to see the games become a national celebration of Scottish culture.

"The goal is to see (this) as a national festival in Cambridge showing everything from Highland bagpipers to Highland games," said Macdonald. "The games, music and level of competition are factors that only the Cambridge games attract to people and have contributed to their reputation."

A national festival, taking place at Chalmers Park, the theme of the games is performance and variety, and the games will also include a night of music for people to come to the games for a good time.

The competitions, the main event, will be held from 10 a.m. to 6 p.m. and will include a variety of events, including the 1500 yard race, the 1000 yard race, the 500 yard race, the 250 yard race, the 100 yard race, the 50 yard race, the 25 yard race, the 10 yard race, the 5 yard race, the 2.5 yard race, the 1.25 yard race, the .625 yard race, the .3125 yard race, the .15625 yard race, the .078125 ## The survey says...

## Students pick radio format

By Mark Hays

At this moment while these students are figuring out where they are going to work tomorrow, "but how many people (students) are thinking about what they have to do today? Not too many. They are just going to go to work tomorrow and be thinking about what they have to do tomorrow." This is the way that broadcasting students who will be spending their time have already begun to think.

CEE and CEEB will be changing formats for the new school year and to help them decide on what the students will have on the radio, they have printed two surveys (one in the student and another in the faculty).

The survey lists several types of music, and students are asked to select to check off which music they like to have on the radio.

The information will then be taken into account by the radio board and they will develop the new format for the radio.

Broadcasting programs on radio station WCEB (radio) says that the radio board has been working on the radio and will be open to the students.

## Celestica takes 15 for internship

By Tim Kyle

15-year Celestica students will participate in a 15-month career development program in Celestica, a North York company and electronics manufacturing company. The program will involve students and faculty who are currently working on the program.

Many students will be working in the program, starting in May, one of them expects to work in Celestica.

It had 11 positions in the program, with 10 in Celestica and 1 in Celestica.

Two students accepted positions in manufacturing programs, while the other 10 accepted positions in the program. The program will involve students and faculty who are currently working on the program.
